Mars Rust, an orbital disk, twin satellites and the supplied Union endorsement. No generated scene or decorative texture.

LETTERS, SERVICE CARDS & WAYFINDING

LETTERHEAD

The Union endorsement stays small. The responsible agency owns the document title, date, version and contact information.

PUBLIC SERVICE CARD

Institution ID and service route remain visible. A card is not an authentication mechanism; real identity credentials need a separate security design.

WAYFINDING

Place names and directions lead. The orbital mark signs the service; it does not replace words, tactile guidance or accessible audio.
