

THE SOLAR SYSTEM UNION

Where civilization emerged.

Humanity across planets, moons, asteroids and artificial habitats. Shared rights, common institutions and local government connect the communities of the Solar System.

WORLDS, HABITATS & CORRIDORS

SOL Sun & heliosphere Power from the source.	MER Mercury Industry at the edge.	VEN Venus Above the clouds.
EAR Earth Our shared origin.	LUN Moon A world within reach.	MAR Mars A new civic horizon.
BEL Main Belt Many rocks. One commonwealth.	JOV Jovian system A system within a system.	SAT Saturnian system Communities around the rings.
URA Uranian system Life along a tilted horizon.	NEP Neptunian system Distance without isolation.	PLU Pluto-Charon Two worlds. A shared future.
KUI Kuiper Belt Homes beyond the planets.	ERI Scattered Disk A voice at the outer edge.	CMT Comets & Oort missions Following moving worlds.
LAG Lagrange habitats Homes between worlds.	TRO Trojan communities Together along the same orbit.	COR Interplanetary corridors Connecting every destination.

INSTITUTIONS THAT CONNECT US

A selection of public responsibilities

PAR Assembly of Citizens Represents citizens; adopts laws, approves budgets and holds the executive to account.	COU Council of Worlds & Habitats Represents member worlds and habitats; protects local powers in common legislation.	CRT Union Court of Justice Protects charter rights; resolves jurisdiction disputes and reviews public decisions.
CIV Citizenship & Mobility Commission Keeps civic status, family recognition and access to services portable between worlds.	SCI Science & Discovery Commission Coordinates open discovery, shared observatories and the integrity of scientific evidence.	BIO Planetary Protection Authority Protects potential life and unique environments; reviews mission access and sample custody.
